Noteworthy Attractions

June 2017, **Men's Health** ranked Raleigh one of the "10 Most Adventurous Cities in America," citing the city's greenway system which offers more than 100 miles of trails for running, walking and biking, the city's BMX assets, horse-back riding and water sports as reasons to visit the capital city.

Transport yourself to a long-ago place and time when you visit **Robertson Millpond Preserve** in Wendell, an 85-acre refuge for nature lovers, canoeists and kayakers. The area is significant for its rich cultural and environmental history. When you look around, you'll think you are in the Great Dismal Swamp! Paddle on the millpond in non-motorized boat, explore the natural areas and fish in designated areas

With more than 160 acres of meadows, woodlands, gardens and creeks, the **Museum Park at the North Carolina Museum of Art** is the largest museum art park in the country and recently got even bigger! An expansion project bringing new contemporary gardens, a promenade connecting the park and galleries, hundreds of new trees and an elliptical lawn overlooking the park's rolling meadow opened Fall 2016.

The **Morgan Street Food Hall and Market** is a new lifestyle dining concept; not to be confused with a food court, the establishment will feature a partnering confluence of local favorite eateries and restaurants as well as food retailers. The goal is to introduce the concept of cross-meal ordering, where different meals are enjoyed in a shared seating area. With a vast expanse of over 22,000 sq.ft., Morgan Street Food Hall and Market plans on bringing something fun and new to the Downtown Raleigh's Warehouse District. Opening Winter 2018.

With constantly changing exhibits, **CAM Raleigh** in downtown Raleigh's Warehouse District explores what's current and coming in the art and design world. Transportation

RDU International Airport currently averages approximately 400 arrivals and departures daily and services more than 11 million passengers annually. RDU provides service to 43 of its top 50 destinations via nonstop flights and consistently has the lowest average fare among North Carolina's commercial airports. Delta flies nonstop to Paris daily and American to London Heathrow, also daily. This year, both airlines increased the size of the aircraft on the route adding comfort and additional capacity.

Next on the list? RDU recently added non-stop flights to Kansas City, Providence and San Juan and is pursuing international expansion to include flights to China and Mexico.

Downtown Raleigh's Warehouse District will house the new **Union Station** transportation hub, which will open in 2018. This major project will accommodate longer trains and have larger platforms, amongst other improvements. As part of a 10-year strategic Wake County Transit Plan approved by voters in 2016, Union Station will not only serve Amtrak passengers, but also act as a multi-modal transit center connecting riders to other forms of transit.

The plan includes the expansion of bus service from 17 to 83 miles, including 20 miles of Bus Rapid Transit-related infrastructure improvements and will complete with the activation of 37 miles of Commuter Rail Transit (CRT) running from Garner to downtown Raleigh, N.C. State University, Cary, Morrisville and the Research Triangle Park continuing to Durham and will leverage the bus network to connect riders to RDU as well.
